RE: **Fiscal Year 2010 Average Wage for the State Economic Development Incentives**

Dear Mr. Sizemore:

The 2010 fiscal year measurements of salary levels under the Industrial Assistance Fund (IAF) that includes the Rural Fast Track Program and the Economic Development Tax Increment Financing (EDTIF) programs wage criteria are enclosed. These average wages are based on the most current Department of Workforce Services data. The average wage data is posted for the current fiscal year at [www.business.utah.gov/incentives](http://www.business.utah.gov/incentives).

IAF and EDTIF incentives contracts before May 2008 remain under the Median Wage requirements as specified in the individual agreements. However, the County Median Wage for those contracts has been indexed by the average change in the Department of Workforce Services Average Wage data. The fiscal year 2010 median wages were increased 2.57% above the fiscal year 2009 median wages. The individual companies are notified of the median wage requirement when their new disbursement period begins. If you would like a list of the median wages used by county for the pre 2008 contracts, please let me know and I will send you the indexed median wages by county.

We hope this information is helpful as you work with the great companies that are relocating and expending in your area. Please contact me at (801) 538-8860 with any questions.

Sincerely,

Tamy Dayley, CPA  
Senior Financial Analyst
